

SP-10 SolarPulse Solar Charger, 10-Watt
Part #: 735X315
NSN: 6130-01-688-4859
Cage Code: 00NQ8

Description:

The SP-10 solves battery problems for units using 3 or more batteries connected in parallel eliminating jump starts and worries about weak batteries. It provides a full 10-Watts of power in a compact, durable 12.41" L x 9.85" W x 0.2" H solar panel.

Rated at 625 mA, the SP-10 charges, maintains and desulfates any type of 12-Volt lead-acid battery system including AGM, flooded cell, gel and VRLA. It utilizes PulseTech's unrivaled solar charging system combined with a patented optimized high-frequency pulsing circuit to ensure batteries always start and release maximum power when needed no matter how long they've been sitting unused.

Instead of a breakable glass coating, our solar panels are protected with a clear polyurethane plastic coating that makes them virtually indestructible and impervious to weather aging and damage from bumps and knocks. Five-Year Limited Warranty. Mounting kit included.

Specifications:

Output Current	625 mA
Output Voltage, Bulk Charge	16.5 V dc
Circuit Box Dimensions:	3.4" L x 2.4" W x 1.5" H
Solar Panel Size:	12.41" L x 9.85" W x 0.2" H
Solid Light LED:	Full sunlight/working at optimum level
Box to Panel Wire Length:	17 Feet
Box to OBD Cable Length:	3 Feet
Weight:	2.5lbs
Shipping Weight:	2.9lbs
