

24V Battery Solar Pulse Charger with Mounting Kit and Lugs, 10W

- Charges and desulfates 24-volt lead-acid battery systems
- Works with flooded, AGM, gel and VRLA lead-acid batteries
- Extends battery life
- Restores and maintains the normal loss of battery power on seldom-used vehicles and equipment
- Patented Pulse Technology circuit continuously desulfates batteries as it charges
- Commercial-grade crystalline cells are 30% smaller per watt than and twice as efficient as typical panels
- Dramatically reduces jump starts
- Blinking LED indicates the circuit is energized and the unit is working
- Helps protect the environment from premature battery disposal
- Safe, reliable and weatherproof
- One-Year Limited Warranty

Rated at 357 mA, this 10-Watt Pulse Solar Charger provides high frequency pulsing across two, four or six batteries wired in series parallel. It works with any lead-acid batteries (VRLA, AGM, flooded cell and gel) and keeps batteries in like-new condition all the time no matter how long vehicles or equipment sit unused outside.

This unit utilizes our unrivaled solar charging system combined with our patented high frequency pulsing circuit, Pulse Technology, to ensure batteries start when needed. Pulse Technology reverses the naturally occurring process of battery sulfation - the main cause of battery failure. This allows batteries to accept, store and release maximum power all the time extending battery life.

Safe, reliable and weatherproof, this unit prevents dead batteries by keeping them in like-new condition indefinitely. An LED light indicates the circuit is energized and the unit is working. Mounting kit included.

Specifications

Input Electrical

Input Source: Solar-powered

Output Electrical

Output Current: 357 mA

Output Voltage: 33 VOC

LED Indicator

Indicates circuit is energized and unit is working

Mechanical/Physical Characteristics

Circuit Box Dimensions: 4.9" x 1.8" x 1"

Solar Panel Dimensions: 9.8" x 12.7" x .125"

Shipping Weight: 2.6 lbs.

Box to Lug Wire Length: 50 inches

Box to Panel Wire Length: 25 feet

Ordering Information

735X724

Part Number

24VPSC-10W-MK

Model Number

6130-01-688-4857
